Ayesha Siddiqua

Frontend Developer | React, TypeScript & Python | End-to-End Full-Stack Integration

Email: a.siddiqua.nadeem@gmail.com | Phone: +92 315 4486062 | Lahore, Pakistan | GitHub: github.com/ayeshanadeem45

Professional Summary

Dedicated **Frontend Developer** with solid full-stack development experience, specializing in modern web applications using **React, TypeScript, Python**, and design systems including **Tailwind CSS, Shadcn/ui**, and **Material UI**. Demonstrated expertise delivering 6 complete frontend-and-backend integrated projects during an internship at **Systems Limited (CADM Department)**, ranging from automated enterprise workflow platforms and AI shopping assistants to model decision games and extension analytics dashboards. Passionate about writing clean, maintainable code, architecting intuitive user experiences, and integrating robust RESTful APIs.

Technologies & Skills

Frontend Engineering: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Shadcn/ui, Material UI, Component Architecture, Responsive Design, State Management

Backend & APIs: Python, RESTful API Development, API Integration, JSON Data Pipelines, Backend Service Integration

Tools & Workflow: Git, GitHub, VS Code, npm, Vite, Postman, Agile/Scrum

Core Competencies: Full-Stack Web Integration, Decision AI Integration, Analytics Dashboards, Performance Optimization

Professional Experience

Systems Limited

Frontend Developer | CADM Department

Jul 2026 – Oct 2026 | Lahore, Pakistan

Responsibilities:

- Architected and developed user interfaces and integrated full-stack logic for 6 major enterprise and client-facing web applications.
- Built dynamic, responsive frontends and connected backend Python and API services ensuring zero-lag state synchronization and consistent data validation.
- Standardized reusable UI component libraries utilizing Tailwind CSS, Shadcn/ui, and Material UI across enterprise modules.
- Collaborated closely in cross-functional CADM agile sprints, performing peer code reviews and participating in deployment pipelines.

Lahore Development Authority (LDA)

IT Intern | IT Department

2025 (3 Months) | Lahore, Pakistan

Responsibilities:

- Supported IT department infrastructure, digital records maintenance, and enterprise software systems in an active government environment.
- Coordinated with department engineers to streamline IT workflows, monitor portal performance, and assist in technical support operations.

Key Projects

CSuite – Automated Business Workflow Platform

- Engineered an automated workflow solution designed for modern business operations, streamlining inter-departmental task routing and execution.
- Built an interactive React and TypeScript frontend with full backend API integration, supporting real-time process monitoring and status tracking.

AI Shopping Assistant

- Developed an intelligent conversational shopping application that analyzes customer preferences and delivers real-time product recommendations.
- Implemented fluid chat interfaces with dynamic product cards, cart interactions, and smooth asynchronous API communication.

AI Decision Models Game (OpenAI & Decision 1)

- Built an innovative full-stack decision game featuring AI models (OpenAI, Decision 1, and Microsoft decision models) competing autonomously in place of human players.

- Implemented game state management, round simulation algorithms, score tabulation, and real-time frontend visualization demonstrating which model prevailed.

ZooCode Analytics Dashboard

- Designed an analytics dashboard monitoring developer VS Code extension adoption, tracking total active users, token consumption rates, and session trends.
- Integrated data visualization charts and key KPI metric cards using modern component libraries.

Agentic XP & Converge Platforms

- Built high-performance frontend interfaces for Agentic XP, allowing visual monitoring of autonomous agent interactions and execution graphs.
- Developed responsive module components for Converge with Material UI, ensuring cohesive accessibility and cross-browser responsiveness.

Education

Bachelor of Science in Information Technology (BSIT)

University of Education, Lahore | *7th Semester (Ongoing)* | ***CGPA: 3.72 / 4.00***

FSc Pre-Engineering

Punjab Group of Colleges (PGC) | ***Grade: A+***

Certificate in Programming

Punjab University, Lahore | *2023*

Hobbies & Interests

Book Reading, Sketching & Calligraphy, Painting, Language Learning, Poetry, and Gaming.
